ANNEX B TECHNICAL SPECIFICATIONS

A. About IDLO

The International Development Law Organization (IDLO) is the only global intergovernmental organization dedicated exclusively to promoting the rule of law to strengthen peace and sustainable development. Established as an intergovernmental organization in 1988, it has had Observer status with the United Nations since 2001. It has experience working in more than 90 countries around the world with diverse legal systems.

IDLO began its work in Honduras in 2012 within the framework of the Euro Social II Program, dedicated to the promotion of social cohesion in Latin America by providing technical assistance for the creation of CAPRODEM (Center for Attention and Protection of Women's Rights) that was successfully integrated into the Honduran system and later expanded to offer services to women through the National Program 'Ciudad Mujer'.

Based on the results achieved through the Euro Social II program, IDLO managed to establish itself in Honduras in 2015 for the implementation of the Program 'Reduction of Homicides and Violence through Access to Justice (RHAIJ)', which was agreed with the Honduran State under the Host Country Agreement Decree 114-2016.

B. Background

The Reduction of Homicide and Violence through Access to Justice (RHAIJ) programme ended in October 2021, and at the end of 2021 an independent final evaluation was carried out, conducted by external experts, who identified the results and lessons learned from IDLO's intervention in Honduras.

In parallel, IDLO and the Food and Agriculture Organization of the United Nations (FAO) implemented a pilot project to enhance the legal environment for food security and nutrition in times of emergency. The joint project aims to increase the awareness of state institutions, and key stakeholders to have a better understanding of the legislative measures that have been adopted in response to COVID-19 and how they might affect access to affordable and nutritious food, with attention to the most vulnerable groups and women and girls. The findings of the analysis will be presented in a legal assessment report, which provides an overview of the legislative measures that have been adopted in response to COVID-19 to guarantee the right to adequate food and how these measures have been implemented and offer recommendations to strengthen the FSN regulations in response to emergency and recovery.

This last project has also been completed and it has been possible to analyze how the measures adopted by the Government of Honduras, to contrast the health crisis, have affected food security, nutrition, and the realization of the right to adequate food of the most vulnerable Hondurans. The analysis is based on a theoretical examination of international, regional, and national laws and regulations in the field of Food Security and Nutrition, as well as the main measures to contain and mitigate the effects of the pandemic at the national level.

Considering that both initiatives have ended, and concrete results are in place, IDLO plans to hold a day of socialization of the results with the new government administration and national institutions, to ensure accountability, sustainability and applicability of the recommendations arising throughout IDLO's intervention in the country.
